

Instruction for Rohini RH-75

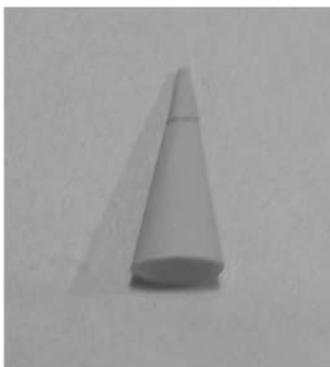

Glue the connector B and the strips C and D to the backside of A as shown above.

Roll and glue A into a tube.

Glue disc E into the top and disc F into the bottom.

Roll and glue G into a cone using the connector.

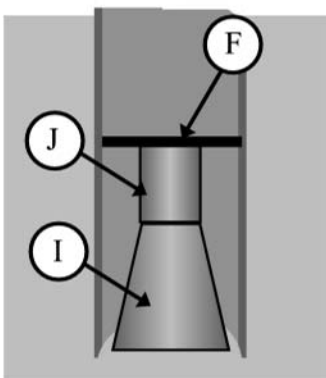

Glue H inside the top of the rocket.

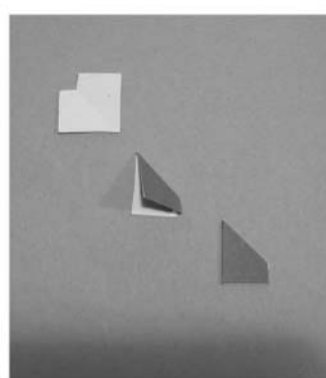

Then glue G to the top of the rocket.

Roll I to a cone - and glue J to the top.

Glue the nozzle (I+J) inside the bottom of the rocket.

Fold the fins K as shown

Glue the fins in place.
